

Gufler Gothard

Schlosserei & Maschinenbau

PW17 Multi

The professional winch

The mobile towing winch for multiple use

Features

- A new type of winch based on the capstan principle
- low operational weight (40 kg in all)
- high tractive force (1,7 tons)
- high mobility
- constant tractive cable force and speed
- use of different lengths of cable up to, in theory, endless
- easy to maintain and repair due to its modular system

Specifications:

Gear ratio	veloce i=280	lento i=75
Pulling power at capstan type winch Drum with 3.7kW motor	17kN(1,7t)	4,5kN(0,45t)
Pulling speed at 9000rpm Motor speed (max. Power)	12,5m/min	47m/min
Cable diameter (standard)	7,2mm	
Cable length (standard)	60m (slack cable)	
Chain saw motor drive With 3/8" - spocket-wheel	3-3,7kW (4-5HP)	
Weight without motor, cable basket, cable	17kg
